

1) **CPR**

You must submit a current copy of a CPR card for Health Care Provider CPR within the last 2 years. The CPR must:

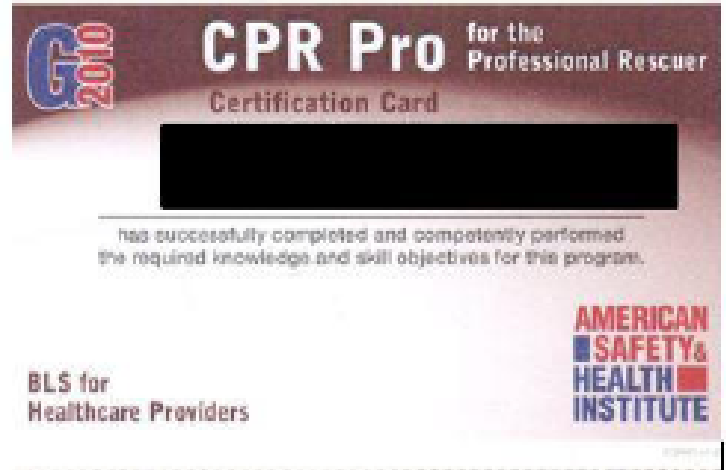

- be Health Care Provider level. (Card will say "Health Care Provider" or "BLS for Healthcare Provider" or "BLS HCP").
- include infant, child, and adult and 1 and 2 man rescuer training.
- be an American Heart Association approved training course.
- be valid throughout the duration of the program including the clinical externship.

Common examples of acceptable CPR types:

Correct - this says BLS for Healthcare Providers in small type

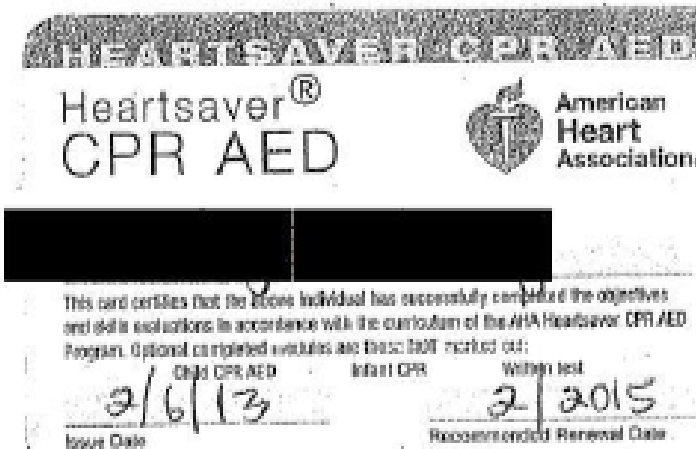

Correct - this says BLS for Healthcare Providers in lower left

Common example of unacceptable CPR types:

WRONG - not Healthcare Provider level

WRONG - Not Healthcare Provider level
