

## ***Spring Announcement #4***

Phoenix College will be the premier provider of student-centered learning opportunities for our community to go far close to home.

Greetings,

Thank you all for navigating a difficult spring semester. The continued resilience demonstrated by our faculty, staff, and students through these challenging times is uplifting. As we approach the end of the semester, continue the frequent and clear communication with your students and one another. This edition will cover ongoing IT support, the Women in Steam Panel, a brief budget update, and welcoming the Interim President.

The banner features a dark blue background with a white and grey shield icon on the right. The text is white and green. A green button is located below the main text.

There will be an open panel discussion with Phoenix College and Arizona State University STEM students and professionals. We'll chat about their journey, what it means to be a woman in their field, and advise current students seeking a career in the STEM field.

*Please share the flyer below with colleagues and students who might be interested. Please encourage students to attend, as we will also mention current internships and REU's available for them to apply to.*

---

The Budget Steering Team (BST) continues to plan for the 2021-2022 academic year while waiting for the official budget allocation from the district office. As final budget allocations are shared out with the colleges the team will continue to fund requests for staffing and support. The team will share out with PC the final funding plans once the information is available.
