

Histologic Technology (HT Level) Program Student Outcomes Measures:

Graduating year (January to December)	ASCP Exam Pass Rate (within 1 year)	% of Graduates Retained After Entering Final Year of the Program	Graduate Job Placement in 1 year (or Continuing Education)
2022	100%	100%	100%
2023	80%	100%	100%
2024	100%	100%	100%
3-year Program Average	86%	100%	100%

Notes: The three-year weighted average pertains to the period for 2022-2024.

Graduation and attrition rates are cohort based. Cohorts are defined as all students enrolled in the Histologic Technology core program courses at Phoenix College entering the final half of the program (HST185 or higher) and have graduated or withdrawn as of January 1, 2025.

Placement and exam pass rates are based on all graduates in a calendar year. Of those individuals who responded to the surveys, graduates were counted as placed if employed in the field or continuing their education within 12 months of graduation. Graduates were counted as passing the ASCP Board of Certification exam (or other recognized exams) if they passed within one year of graduation.

Graduating year includes students that have graduated both in May and November of a given year.

Histologic Technology program outcomes measures as defined by the National Accrediting Agency for Clinical Laboratory Science (NAACLS, 5600 N. River Road, Suite 720, Rosemont, IL 60018, 773-714-8880, www.naacls.org)
